EXPERIENCE

2016 - 2019

albrima.be
bouwpaulverschueren.be

FULL-STACK WEBDEVELOPMENT

In the process of studying for my bachelor's degree, I worked for 2 clients in my spare time. I made the website of the construction company my first year. The second website I created was called albrima.be and was written with nuxtjs.

Spring 2019

mother.life

FRONT-END INTERNSHIP

From building a sales-ready e-commerce site with a sales funnel integration all the way to designing the Kickstarter page and mail campaigns.

Fall 2019

Mother App
iOS & Android

IOS & ANDROID APP DEVELOPMENT

To develop a production ready cross platform application I chose vue-native. In order to combine all benefits of 2 frameworks. Vuejs and React-native. I have built this app with an easy-to-use CMS using Vuejs.
